

# SEMINAR

Wed, 16 Nov 2022 | 3 pm | DBS Conference Room 1

Hosted by A/P Low Boon Chuan

## ***Cancer Cell: advancing with the community***

I will use this presentation as an opportunity to share with the audience new initiatives at Cell Press to promote ecosystem building and serve authors and scientific community. In addition, I will introduce *Cancer Cell*, our editorial team, the editorial and peer-review process, and our interested areas.

**By Steve Mao**

Editor-in-Chief, *Cancer Cell*  
Publishing Director, *Life & Medical Sciences*, *Cell Press*

*Dr. Mao graduated with B.S. in biological sciences from Peking University, followed by a PhD in cell biology and biochemistry from UT Southwestern Medical Center. After postdoctoral training at Cold Spring Harbor Laboratory and Harvard University, he served as scientific editor of Cell and Senior Editor of Science. He is currently editor-in-chief of Cancer Cell, and also publishing director of Cell Press managing life and medical sciences journals, including Cancer Cell, Cell Metabolism, Cell Stem Cell, Developmental Cell, Immunity, Med, Molecular Cell, and Neuron.*
